OBJECTIVE & PROFILE

Seeking a 6-month Master 2 Internship starting Jan/Feb 2027 in Community Ecology & Ecological Modelling.

Bridging empirical ecology and theoretical modelling, I leverage strong quantitative tools (R, Python, biostatistics) to study complex biological systems. I am eager to join a dynamic research team combining field data and computational models to tackle broad ecological challenges.

EDUCATION

M.Sc. in Ecological Systems Modelling (Track: BEE)

University of Toulouse III - Paul Sabatier

2025 – Present

📍 Toulouse, France

- **Focus:** Quantitative Ecology, Deterministic & Stochastic Modelling, Complex Systems.
- **Application:** Analyzing tropical ecosystem dynamics using mathematical tools (R, Python).

Bachelor's Degree in Life Sciences

University of Clermont Auvergne

2022 – 2025

📍 Aubière, France

- **Major:** Biology of Organisms and Populations (Evolutionary Ecology focus).
- **Key Coursework:** Population Genetics, Functional Ecology, Biostatistics.

DUT in Biological Engineering (Agronomy)

University of Clermont Auvergne (IUT Aurillac)

2020 – 2022

📍 Aurillac, France

- **Focus:** Agronomy, biological engineering techniques, and field experimentation basics.

RESEARCH EXPERIENCE

Research Intern | Community Ecology & Modelling

Centre for Research on Biodiversity and the Environment (CRBE)

March 2026 – August 2026

📍 Toulouse, France

- **Context:** "Life on Trees" and "MICROBARK" Programs. Investigating fungal community assembly in **neotropical epiphytes** (samples from Peru & Colombia).
- **Modelling:** Applying multivariate statistics and network inference on metabarcoding data.
- **Objective:** Testing hypotheses on niche differentiation in canopy ecosystems.

Research Intern | Tropical Ecology & Taxonomy

Laboratoire Microorganismes: Génome et Environnement (LMGE)

Jan. 2024 – June 2024

📍 Clermont-Ferrand, France

- **Project:** Studied aquatic invertebrate diversity in **Amazonian bromeliads**.
- **Data Management:** Managed large ecological datasets and conducted taxonomic identification.
- **Outcome:** Produced scientific "species sheets" to support the lab's taxonomic database.

Field Naturalist Intern

Alter Eco Cantal

May 2022 – July 2022

📍 Auvergne Regional Natural Park, France

- **Fieldwork:** Autonomous field surveys (Flora/Fauna) for biodiversity conservation.
- **Skills:** Habituation to outdoor work conditions and rigorous data collection protocols.

SKILLS

COMPUTATIONAL

R Language (Advanced Stats, modelling), Python (Basics), QGIS, LaTeX.

FIELDWORK

Tropical Adaptability Naturalism, Data Collection, Taxonomic ID (Flora & Fauna).

LANGUAGES

French (Native) | **English** (B2 - C1) | **Spanish** (Basic) | **German** (Basic).

OTHER

Driving License, Photography (Scientific), Mountaineering (Physical endurance).

ADAPTABILITY & OTHER EXPERIENCES

Climbing Instructor & Gym Staff

Sept. 2024 – Present

B'up Climbing Gym

📍 France

- **Safety & Responsibility:** Managed safety briefings and supervised climbing sessions for diverse audiences.
- **Adaptability:** Versatile role combining customer service, reception, and safety enforcement.

Bartender & Waiter

June 2024 – Aug. 2024

Le Rouge et Noir

📍 France

- **Efficiency:** Stock management (FIFO), cocktail preparation, and service in a fast-paced environment.

Logistics & Industrial Operator (Interim)

Summers 2022 – 2023

Skipper, Haupt Pharma, Bioline Agrosiences, Plastilav

📍 France

- **Biological Handling:** Handling of biological products (insect eggs) and chemicals at *Bioline Agrosiences*.
- **Rigor & Standards:** Quality control of pharmaceutical products and compliance with hygiene protocols.
- **Technical Skills:** Forklift driving, order picking, and supply chain logistics.
- **Resilience:** Proven ability to perform physically demanding tasks in industrial settings.
